

FDA This icon indicates discussion of uses not approved by the FDA. RSNA recognizes that at educational meetings, faculty may discuss the application of some devices, materials, or pharmaceuticals that are not FDA approved. In keeping with the highest standards of professional integrity and ethics, RSNA requires that faculty fully disclose to the audiences that there will be discussion of the unlabeled use of commercial product, device or pharmaceutical that has not been approved for such purpose by the FDA.

Authors of scientific abstracts at RSNA 2016 have guaranteed that human research was conducted following institutional review board (IRB) approval, under a waiver from the IRB, or in accordance with the World Medical Association Declaration of Helsinki and the animal research was conducted following approval by the institutional animal care and use committee or in accordance with the National Institutes of Health Public Health Service Policy or Humane Care and Use of Laboratory Animals.
